

POWER BUSHING ASSEMBLIES 15kV CLASS, 110kV BIL, 15.00" CREEP

These bushings are designed for transformer and special power apparatus applications. The electrical ratings given are based on use in a liquid filled transformer with the lower end of the bushing under oil. Porcelain is gray glazed all over and the top skirts are designed for outdoor application.

Clamps and washers are non-magnetic. Constant gasket pressure to top terminal is maintained by disc springs to compensate for the thermal expansion and contraction of the copper stud. Nitrile (Buna-N) gasket is standard. For ordering assemblies with the cork-rubber composition gaskets, add the suffix "C" to the part number.

Bushings are designed for mounting in $\phi 3.13$ (min.) hole.

STUD SIZE	PART NO.	"L"	"S"
